**Subject:** United States v. Global Partners LP, et al., DJ Ref. No. 90-5-2-1-11428

Please stop these toxic bursts. The citizens of South Portland need Global Partners to install best practices methods to capture fumes to protect the health of our citizens. Global should be held responsible to pay for the city to have a state of the art air monitoring system with an expert who works for the city and records these bursts. They have been violating their permitted amounts and this needs to stop.

Abby Huntoon
